of New Jersey.

For Vice President.  
THOS. R. MARSHALL,  
of Indiana.

For Congress  
D. H. KINCHELOE,  
of Hopkins County.

## When It Is Hot.

Consider Mr. Shadrach,  
Of fiery furnace fame;  
He didn't bled about the heat  
Or fuss about the flames,  
He didn't stew or worry,  
And get his nerves in kinks,  
Nor fill his skin with limes and gin  
And other "cooling drinks."  
Consider Mr. Meshach,  
Who felt the furnace, too;  
He felt it, but he queried "Is  
It hot enough for you?"  
He didn't mop his forehead,  
And hunt a shady spot;  
Nor did he say, "Geel what a day!  
Believe me, it's some hot!"  
Consider, too, Abed-nego,  
Who shared his comrades' plight;  
He didn't shake his coat and make  
Himself a holy sight.  
He didn't wear suspenders  
Without a coat and vest;  
Nor did he scowl and snort and howl  
And make himself a pest.  
Consider, friends, this trio—  
How little fuss they made,  
They didn't curse when it was worse  
Than ninety in the shade,  
They moved about serenely  
Within the furnace bright,  
And soon forgot that it was hot,  
With "no relief in sight."  
—Chicago Tribune.

John M. Parker, vice presidential  
nominee of the Progressive party,  
has announced that a conference of  
the party leaders had been called to  
meet in Indianapolis Aug. 3, to decide  
what course it was advisable for  
members of the party to follow. Be-  
cause of this action, Mr. Parker said,  
the Progressive national convention  
which he proposed should be held in  
Chicago on August 5, will be aban-  
doned, at least for that date and place.

Governor Stanley has appointed  
Neville S. Holeman, of Dawson  
Springs, Democrat, and Thomas B.  
McGregor, of Frankfort, Republican,  
as the State Election Commissioners.  
Rodman W. Keenan, clerk of the  
Court of Appeals, is the ex-officio  
member. Gov. Stanley appointed the  
second man on the Republican list,  
Thos. L. Walker being mentioned  
first.

The New Haven Echo takes this  
mean little fling at the Kentucky  
statesman regarded all over the na-  
tion as the greatest of living Ken-  
tuckians:

"Ollie James is to be used in Maine  
and other doubtful States during the  
coming campaign. The leaders are  
wise in keeping him out of his own  
state, where he is too well known."

If we can borrow money at 3 per  
cent on 40 years' time, to buy land,  
owning a farm will beat running many  
a town business.

Kansas lacks only two days of  
breaking all drouth records for 30  
years.

## TUBERCULOSIS.

Tuberculosis or consumption is the  
most virulent of infectious disease we  
have to cope with and is killing more  
of our people today than any other  
disease and yet the majority of peo-  
ple are indifferent to and treat it  
lightly as a case of hiccoughs. Ken-  
tucky leads in the death rate of the  
Union and Christian county has over  
50 cases, more than any other coun-  
ty in Kentucky and yet no steps are  
taken to stamp out this terrible great  
white plague. With co-operation of  
everyone working earnestly and  
faithfully in eliminating it, this could  
be accomplished in ten years as affect-  
ually as typhoid fever or any other  
infectious or contagious disease. On  
the other hand it is my candid belief  
that a sound person perfectly free  
from contamination will not be found  
in the county in the same length of  
time. This disease has been running  
unrestrained since time immemorial  
and little wonder that it has gained  
such a strong hold upon us. What  
steps will be taken to check this dis-  
ease? You will be given an oppor-  
tunity soon to decide. Join the Chris-  
tian County Public Health and Wel-  
fare Club and pay your dues at one  
dollar a year and help in the noblest  
cause that was ever undertaken in  
your state. Plans have been formu-  
lated by the state commissioners to  
divide the state into nine sections and  
establish a large hospital well equip-  
ped for caring for these patients to a  
section of 15 counties each. Organize  
Public Health and Welfare Leagues  
in every county in the state and to-  
gether with the tax rated by the fiscal  
courts for each individual county we  
would soon be able to begin work on  
an immense hospital. Who wouldn't  
be willing to protect himself and his  
family against this most loathsome  
disease? We would rigidly quaran-  
tine a case of leprosy yet we don't  
pay any attention to tuberculosis and  
it is to my mind and the medical and  
nursing profession a thousand times  
more infectious than leprosy.

Everyone has his niche to fill in  
this campaign against tuberculosis and  
it will be your Christian duty to ap-  
point yourself as a committee of one  
to investigate and report any case of  
tuberculosis that is known to exist in  
any locality to this League. You have  
the power by law to do this. This in  
the spirit of brotherly love—to take  
the same interest in your neighbor as  
you would in your own family as re-  
gards their welfare and the public at  
large. I would that I had the power  
to portray to your mind as vividly as  
it appears to mine the unutterable dis-  
tress these poor unfortunate victims  
are in. This thing has grown colossal  
in its magnitude, and has got to be  
fought by the masses if ever eradicated.  
We have already a number of  
memberships due before the League  
is organized and we want every self-  
respecting citizen in the country to  
join. On the 17th of August this  
League will be perfected at a mass-  
meeting at the Union Tabernacle,  
Hopkinsville.

Tuberculosis is already a preventa-  
ble disease. The sputum of a patient  
is laden with the germs and so long  
as we allow our indigent people to  
reside in houses unscreened with a  
patient in their home, we are going  
to reap a harvest in that locality.  
Every case is a menace to the neigh-  
borhood where it exists, the germs  
being carried by flies, sputum having  
dried floats in the air. Even the most  
intelligent do not always know how to  
cope with tuberculosis. While it has  
been known that a case has been af-  
flicted and died in their home without  
infection some member of that family  
it is next to the impossible especially  
where there are children. Little chil-  
dren are more susceptible to this rav-  
aging disease and the best advice I  
could give to mothers is to keep chil-  
dren away from anyone suffering  
from this horrible plague. I have  
seen mothers carrying infants around  
the bed of a tuberculosis patient.  
This is the most atrociously criminal  
procedure that I have ever witnessed.  
They would be more merciful if they  
would kill their children by strangulation  
and make quick work of it. Isolate  
these patients and keep down the  
spread and as the alternative place  
them in a sanitarium where they will  
be properly cared for. A larger per-  
cent of patients will recover when  
they have the care and regular rou-  
tine in a sanitarium for it is a careful-  
ly mapped out living that is the cure.  
Everyone knows and should know that  
fresh air, good nourishing food, plen-  
ty of sleep and rest together with  
sanitary environment is the carefully

studied out treatment by scientists  
for tubercular patients. Many have  
been successfully cured in this way,  
but how many people with tubercu-  
losis are able to take this treatment?  
The majority are below the poverty  
line and because of ill nourishment,  
as a natural consequence consump-  
tion is usually contracted and we are  
not able to take the rest cure let alone  
have plenty of nutritious food at the  
same time.

Come to our mass meeting on Aug-  
ust 17, at Union Tabernacle.

MARIAN SAGER, R. N.

## When You Have a Cold

Give it attention, avoid exposure, be  
regular and careful of your diet, also  
commence taking Dr. King's New  
Discovery. It contains Pine-tar,  
Antiseptic Oils and Balsams. Is  
slightly laxative. Dr. King's New  
Discovery eases your cough, soothes  
your throat and bronchial tubes,  
checks your cold, starts to clear your  
head. In a short time you know  
your cold is better. Its the standard  
family cough syrup in use over 40  
years. Get a bottle at once. Keep  
it in the house as a cold insurance.  
Sold at your druggist.—Advertisement.

## Man's Duties.

"There is an idea abroad among  
moral people that they should make  
their neighbors good. One person I  
have to make good: myself. But my  
duty to my neighbor is much more  
clearly expressed by saying that I  
have to make him happy—if I may."—  
Robert Louis Stevenson.

## Effect of One Bottle.

Crandall, Tex.—"After my last  
spell of sickness," writes Mrs. Belle  
Teal, of this city, "I remained very  
ill, and stayed in bed for eight weeks.  
I couldn't get up, all this time, and  
though my doctor came to see me  
every day, he didn't do me any good.  
I had taken but one bottle of Cardui,  
when I was up, going everywhere,  
and soon I was doing all my house-  
work." Cardui helps when other  
medicines have failed, because it  
contains ingredients not found in any  
other medicine. Pure, safe, reliable,  
gentle-acting—Cardui is the ideal  
medicinal tonic for weak, sick women.  
Try it.—Advertisement.

## The Best Book

Of course the best book is the Bible. The man  
who said the best book was the pocket book, tried  
to say something smart and failed.

A bank book is a better book than a pocket book.  
The thief might steal your pocket book, or you  
might lose it in many ways. It's gone for good, too.  
But in case of accident we will gladly supply you  
with another bank book and your funds will always  
be secured in our bank. Place your dependence on  
a bank book in preference to a pocket book every  
time. We will furnish you a nice one free any time  
you wish to open an account

## For Policy's Sake.

"I noticed you maintained strict neu-  
trality while Dubwaite and Twobble  
were having a warm argument about  
the war." "Yes." "Were you not  
tempted to put in a word now and then  
just to expose their ignorance?" "Of  
course I was, but for special reasons I  
didn't dare to open my mouth." "What  
were they?" "I owe Twobble some  
money and I expect to sell Dubwaite a  
piece of property and make some  
money."

## Optimistic Thought.

Joy is a sunbeam between two black  
clouds.

## Real Meaning of Luck.

Luck means the hardships and pri-  
vations which you have not hesitated  
to endure; the long nights you have  
devoted to work. Luck means the ap-  
pointments you have never failed to  
keep; the trains you have never failed  
to catch.—Max O'Rell.

## Sugar From Raisins.

Sugar is manufactured from raisins  
in practically all of the countries of  
southern Europe and western Asia.  
There are two forms of raisin sugar  
imported into New York, one princi-  
pally from Asia Minor and the other  
mainly from Spain.
